

## **2022 06 16 - 3rd KFSSI Space Travel Simulation Testimonials**

(Transcription proofed the main parts - some testimonials too long slow talking - in future they will edit parts)

We can remain permanently in state - if they allow; Protected against one person draining the system; Flight Room is like the Gans Box in manifesting other beings in UC; Don't need to die to free soul - live in both dimensions; Give K 5 years to change humanity

### **Topic Summary:**

Four testimonials are recorded:

1: He wishes to travel to his origin the Moon. Connects deeply to Christ energy in first Chair; Felt the sand on the Moon; He saw earth from Moon and saw lot of small objects flying around it. Could fly over Moon's surface, encountered mountains which looked like small pyramids which absorbed and received light;

2: Lot of energy in head ..

K- This lady got rid of her Herpes of Shingles , could touch skin again

3: Saw ring with star in it, what usually takes a longtime in meditation, he got right away in unit.

K- The wife of the couple was able to connect with the husband without talking. They shared the same emotion without talking. This will be important for space travel. This is how we will communicate in the U.

4: Dr. Kern and 2 sisters and brother in law. He felt lot of pressure in head and eyes. K asked if he wanted to go to Moon, no instead he went to Venus. Golden rivers of lava flowing on the surface . K gave him a glass and he collected some of the golden substance. It was on energy level, it did not materialize.

Then the whole group flew together.

The eldest sister was asked for the last flight to be the captain. He was so surprised that she was so joyful, delightful, and light. He did not know her as so joyful without sorrow.

K- One thing amazing about this family for us was, they managed to drain all our systems, 4 of them. Everything came to a stop. The taking from the system was so heavy, that all our systems through saturation stopped. We analyzed why.

One member of the family was a heavy taker. What the family gave was not enough, then they drained the system itself. This happens when the person feels, "it's my right to take," and it never stops.

When they finished, and we spoke, it was very clear, that a member of the family needs continuous taking. It's a kind of "pity me" attention seeking. It becomes like a black hole in the space. The society in space cannot function this way. We try to avoid this kind of situation in the deep space operation. We have to become selective for physical transportation and in the dimension of the soul. We have made adjustments to our system to stop these things happening.

Dr. Kern showed an awareness of consciousness, and he could exist in both D. (During his travel with the soul he could receive physical instructions and then he could carry it out. Later on they just call it a noise. When they come back out, sometimes they don't even remember what instructions were given. Because the soul has cocooned the physicality, but it hears it.

While we are dreaming, information passes through different sections of the brain to be heard. Now it is the reverse, the soul is outside, the noise has to get to different parts of the physicality for it to react.

We'll try to shorten the interviews to 5 to 10 minutes, with exceptions.

(KF shows everything to public, unedited so we see the reality of it. It's not a made up version for public. This way we all get the knowledge.)

The Italian team will come in as a group, we'll transport them to Moon to make a party. They will be together physically as a group, but some will communicate in the D of the soul, and then we'll see how they convert that conversation into D of P.

(There is a structure in the society in deep space. How would we share our time and soul with each other in the space.)

(Mr. Keshe was asked how he felt about the wonderful events happening. He said, it's a sense of achievement. Not that of 40 years as a scientist, but thousands of years as a nomad on this planet, to bring man to this point. It's good to see man has matured. It's been very hard work of many, many people over a long time. It feels good, I hope man learns from it.)

It's the beginning of a new cycle, like when the wheel was discovered. Man learned to make his first ball of plasma called Gans.

**Can we remain in that state permanently? - Yes - if we allow it**

Q: .. Can those who have traveled remain in that state of soul operation afterwards, or forthwith?

K- We can allow it, yes, if we allow it yes. If we allow it yes.

Many of you who travel in space will never come back. We are not giving you an escape route, we are giving you a way to become part of Universal Community. It's like you live in a village, and you go to the city, you never go back to the village you came from, because the life is different.

These are not portholes. These are the way the U is created.

It is possible that other beings in the U can travel back to earth through these systems.

(You cannot leave the physicality behind and just take the soul.)

We have become passengers of the U, as of 2 weeks ago. We just are putting our toes in the water to see where we are.

We've seen profound changes in some people using the system.

Now man has the option to travel with the soul through the U, and still come back here and live the life of a man.

(You don't need to go to sleep and travel with the soul through your dream, where you have no control over it. Now you can design your dream, where you want to travel to, then manifest yourself in that place and come back to your normal life.)

You don't need to die, to free the soul.

(We have seen the proof of this with the participants. They are traveling with their soul in the span of the U, when they hear Mr. Keshe's voice, they come back to earth. The voice was spoken in physicality, and they can hear it while they are traveling in the U. It's real and they are not asleep. So now you have been given both options, the dimension of Soul or dimension of physicality.)

There are a lot of recording that will be archived and made available to listen to.

(I think it will be an exciting time when we can bring a passenger of the U into our structure in Linz. If we take our cameras into the room, would our cameras be able to register the images of our guests? )

(In reality, if you look at it, once we have completed our operation in the flight room, we will have created another dimension in the U. The room is like your Gans Box. The 2 Flight Units are the electrodes. When one electrode is Nano coated, then the water in the Gans Box is no longer ordinary water. It's in the plasma state. It's in a condition which creates itself. It's another entity. The Flight Room in this building is like the Gans Box, and we are creating a condition in it. In the Gans Box we created the condition of the

Carbon (C) so that it absorbs the CO<sub>2</sub>, then it mixed with the environment and became CO<sub>2</sub> Gans.)

It's the same situation with the Flight Room (FR).

(The interaction of the fields of the 2 Units at a given point with another soul coming in, would create the conditions, that another life from the U could manifest itself in the room. No doubt about it, it's 100% possible.)

(Just like how the orange is outside of the Cup, so a being sitting anywhere in the U is outside the FR. The FR is like the Cup, and the Units are continuously releasing fields of the plasmas of the U. The fields of the 2 Units, plus the fields in the room, of those who are its citizens, will create a condition, that brings forth the fields of another life in the U. That life can become part of these fields in the FR.) (Is what he saying that some of us, parts of our soul may be from other dimensions in the U without us knowing it. Therefore, by us being in the room we could attract beings from other dimensions, that we have a connection to?)

There is no difference, unless you put a limitation on your understanding of the T and the knowledge of the creation. The 2 electrodes are the 2 units, and your plastic Gans Box is the FR. The Gans Box creates fields to absorb the C from the outside environment to become the CO<sub>2</sub> Gans. This is the reality you are working in.

(The interaction goes both ways.) You who are the humans in the FR, are like the Gans's inside the Box. You can be attracted by another dimension.

If we create the dimension of Jupiter, anybody in the FR will be able to go to Jupiter instantaneously. You create it, in your field of emotion.

The game of science has changed. It will change so much, that none of us will recognize the way it is today. Give me 5 years. The teachings over the next 5 years will change man beyond (his imagination).

Soon, not many of you will get into cars, unless you like to have something to do. And none of you will ever go to supermarkets again. One day everything in the supermarket will be made of plastic for people to remember how people used to live. In essence you won't need to kill anymore. You don't need to kill the meat, cheese, lettuce and the rest it to take its energy.

END

## **English Transcription**

(time marks are off, behind by 1:10; used Rafael's recording by mistake )  
(:04).

K- .. when they come out of it

some of these videos run into half an hour with just one person, because trying to dig into the details ... (:06).

We try to give extracts, and some you can get full. ...  
Some people don't want to be on camera, just audio. We put a tile of the floor there. ...  
It's the experience which counts not the picture.

...  
We're going to listen to 3 audios ...

The first one is interesting .. first passenger who went to the Moon in the D of the STM.  
need German translator .. (:08).

**1st Testimonial** . from last Friday (:09) is an audio

T: This man who made the experience last Friday, his wish was to ravel to his origin, to the Moon. (:10). and also connect deeply to the Christ energy in the first Chair. He very upset the feelings up and down for 2 to 3 minutes.

Then he went to Chair 2. his emotions and feelings calmed down,  
In 3rd Chair he experience great expansion in his light , energy and he saw different colors.

Then he was asked by K if he wanted to fly to the Moon. He immediately felt strong pressure in his head, and his feet were grounded

He landed actually on the Moon, .. he felt the sand (:12). under his feet and he tried to ground himself , with his feet on the sand again and again.

As he looked above he saw earth, and a lot of small objects flying around earth , behind him was a much bigger object that had a light connection to the Moon.

He could fly on the Moon, hover over the surface, he saw several small mountains on the surface .. which all looked like small pyramids, they absorbed and received rays of light. (:14).

All the experiences he talked about were in the first Chair. Now he is talking about 2nd Chair, there he experienced on his right side, there was a spiritual energy (entity) which manifested itself and had the color red yellow and golden.

There was a strong expansion even between the seats. where K put him, and very strong feelings, very emotional in a positive sense.

Then he went back to the 3rd Chair again and the structure of the feelings was light, bright easy smooth. (:16).

His whole feelings were relaxed , great relaxation very easy mood, he could fly or levitate .

Back to the 1st Chair he was a little fuzzy in his mind or head, it took time to ground himself deeply grateful ....

K- We'll play another video .. he could touch the sand to hold it ... (:18).

**2nd Testimonial** Dutch

(repeats again ..) (:20).

T: Francine 15th June 2022 .. She went in without any special wishes .. ?? very happy.

Chair 1 ; felt a lot of energies streaming into her head

Chair 2; felt much more in arms and legs still a little too concerned in Chair 3

lot of energy and pressure in head .. shoulders .. (:22).

It was like someone pressed down, subsided ..

She felt lighter .. didn't seem like she came off the ground .. K asked her something

She was asked if she would like to be captain of 4 people , was not intention uncomfortable. (:24).

In 2nd System she felt less pressure ...

So she went out of main system then to chair 3 2 1 and then she became very happy and grateful to take part .. (:26).

Herpes was gone ..

He touched her head very soft and nice ..

(:28).

She got so much help ...

K- (:30). This is the experience of the lady who went through the first process .. she felt pressure , who calls it expansion .. Now we see that expansion through the plasma (Pl) fields. She had what we call shingles, in English or Herpes, or .. the neural system of the skin becomes very sensitive. It's like it cracks the skin, it's very painful process when it ?? moves . She came out .. she was touching her forehead, .. something happened I don't feel ... Now I can touch ..

We put her back in eh system, she was a river of tears. When she came out .. she has no shingles ...

We asked her to report back to us ... the progress ...

That's what the soul wanted to do, was to get rid of this pain which she was carrying for 7 years. ... we start seeing a lot of people, (:32). in these kind of conditions when they come for flight test.

**Play the 3rd Testimonial ..**

(talks very slow and long .. will only summarize ...)

Knew the T some years ago ... (:34).

1st Chair - took seconds , I saw a ring with a star in it, that I know from meditation .. normally it takes some time to get in deepness and inner silence .. very special...

(:36).

(:42). we know each other for 30 years ..

(:46).

K- Can we stop this please .. ??? we pick up pieces .. (:48).

The wife of this man ... she felt (exactly) what he was talking when he was experiencing it.

So for the first time we have the connection of the 2 souls in the machine without talking to each other. When they talked afterwards both went through the same emotion in respect to each other , even though they been together for 30 years.

These little things we look for because actually in the space it is important for us, how we recognize each other. How the 2 souls came to be in this position .

**4th Testimonial -** Dr. Christian Kern ... he is very long in his speeches we cut in pieces (:50).

T: He is there with his 2 sister, and husband of one sister . They wanted to make the experience together as a group and personally. (:52).

Chair 1 - strong pressure on head and eyes.

Chair 2 - the energy even stronger on head and shoulders

Chair 3 - (:54). he is very flushed .. energy got stronger vibrated higher ..

In Flight Unit .- his wish was to realize .. what could should happen. didn't say what but had clear wishes in heart and mind. (:56). Suddenly all desires and wishes disappeared ..

### **Venus Experience**

K asked if I wanted to fly to Moon. But inside he felt no, I want to go to Venus. it was just a thought, within a second he was there. Saw the surface, it was kind of volcano lava there, but the surface changed. it was also gold floating .. like golden rivers, flowing. K handed him an empty glass, (:58). was told to bring some substance, materials from Venus within that glass. Or he wanted to do that. from the liquid floating gold . He felt energy came into the glass, but only energetically, it did not materialize yet.

Second experience was very intense, he connected to the essence of Venus, or to the being of Venus, he surely felt, it's not only a planet, it's a being, a cosmic life being. (1:00).

Then I flew to Saturn, hard to describe what he felt. There were a lot of (nebel) mist, fog, can hardly to describe but very intense another ??

At the same time my sister was in the 2nd Chair ..

The sisters and rest of group all felt stronger uplifting energy, extremely changing energy. He felt the burden of the whole family structure was uplifted. There was a great, great relief for the whole family structure. (1:02).

When they went outside the units. like a circle how the units are put. They stood in the middle of the units, again he felt strong family burdens, he stood again with sister and the burdens were uplifted , great.. relief also outside the units ..

(1:04).

When he stood with sister. several complex unconscious structures became conscious, and he is familiar with the work as a family therapist in working with unconscious structures, but this was a totally another level and dimension (D). a much more ?? expanded D and there was release in these factors then.

(1:06).

K invited them again into the units and fly together with his sister, and he asked him to be the pilot, he asked that he and his sister should focus on one aim. one goal.

They flew to the Moon and it was like a game, children playing, they were all deeply connected within their feelings, they felt each other he, sister and other 2, in their thoughts on the Moon, their wishes were thoughts , and immediately thoughts became reality. (1:08).

4 persons were there ... The eldest sister was asked for the last flight to be the captain. He was so surprised that she was so joyful, delightful, and light . He did not know her as so joyful without sorrow.

The whole time there he felt familiar deep soul level It was exhausting for all participants, but in the end it was helpful and healthy for all of them, he is grateful ... (1:10).

(Dean comes in to ask questions...)

Q: How do you feel in this moment .. when you were inside how long do you feel you were in there for ...

(1:12) .

K- Translation

T: He was surprised there was not really a feeling for time and space.

K- Can we stop this it goes on for a long time ..

.. We travel people as individuals family friends.

This gives us knowledge , how to expect families to interact with each other. ... we bring families .. we let them to hold hands ... (1:14).

We observe if humanity decides to go with the soul, or in the future .. in D of the FS .

### **When somebody drains the systems - takes everything - never enough**

(proofed )

We have handle, we have to understand psychological conditions, we have to understand how things take shape. This is one of the things I continuously monitor and listen, this

comes for the people who come later on. It's not just there, you haven't come in for a test. You've come for us to learn to perfect the system.

One thing amazing about this family for us was, they managed to drain all our systems, 4 of them. Everything came to a stop. The taking from the system was so heavy, that all our systems through saturation stopped. We analyzed why, because we have to analyze, we are there, the fields flow, but everything else to do with operation, we cannot monitor, we cannot see.

What we realized was interesting, that a psychological condition, we know Dr. Kern as psychologist knows, is those who take everything, and whatever you give is not enough. That was given by family to this member of the family, was not enough, our system wasn't enough. It's what we say, you take, "it's my right to take." In a way, we call it a sink, it never stops. When they finished, and we spoke, it was very clear, (1:16). that a member of the family needs continuous, continuous taking.

This was very interesting for me, because I experienced this in the past, and this is something we have to address our system to. This is why we run these trials. It's not just you coming and going. It's how much we can give from the system that satisfies the need. Not only "pity me" attention seeking, but allows the system to continue, because then these become, called the black holes of the space. Everything is attracted to and ?? pulled. The society cannot function in the space.

It's was a very interesting, ... trial with this family, and we kept them deliberately together, and hundred percent, before we started this session, I pulled one of our team out, and said, "we are going to have this." We see that from the 1st and 2nd Chair people come in and we can see. "Nothing is good enough, and I don't get enough and I want everything." We try to avoid this kind of situation in the deep space operation. We have to become selective for physical transportation and we call it, dimension of the soul.

The process is very strong we see it, because of this the family situations, we have made adjustments into our system. Which means we operate in a way we know how. (1:18). We changed a few little things to stop these things happening. This we have more of what we call, tapes of recordings.

But what is interesting with Dr. Kern and the others, that we show in coming days, is awareness of consciousness, but existing in both dimensions. They are in D of emotions, travel, or whatever or soul, they receive a physical instruction and then they follow it. Later on they just call it a noise. When they come back out, sometimes they don't even remember what instructions were given. Because the soul has cocooned the physicality, but it hears.

In a way, if you look at it, we dream, while we are dreaming information passes through different sections of the brain to be heard. Now it is the reverse, the soul is outside, the noise has to get to different parts of the P for it to react and they become ?? Especially

every single one who has been through the process when he gets to Chair 1 coming out, they tell you, they come back to earth, .. physical D.

The purpose has been set, it's amazing how this system works, takes you from the human D into the D of the soul, you go for your job, you come back, you go reverse and you come back to human direction and D. (1:20).

(Proofed to here )

We try to play more of this. we've done about an hour and a half of this, we try to be selective.. we have to ask Dean to cut these to 5 - 10 min maximum 30 minutes.

It's too long if we are going to report most of the things which are happening.

..

Some of them are beautiful experiences, some of them see things, some become part of things. This goes into archive, and one day we open these and everybody can watch. We try to classify them ..

But we still have 1 passenger from day 1, which the blind man, he is still coming

This is important for us that in the space we use the vision of the soul, not the vision of P, and if that soul wants to see, everything has to be perfect with it. This is interesting part of our work, for us, in how we will change things. We add to things.

If there are any question then we'll bring this session to a close. (1:22).

Q: .. Is that a light bed?

K- What?

R: .. one form of healing beds or what they call, Med beds using different colored lights for treatment

K- This is the TV station set . It's ?? because now we put the systems inside the studio to be locked it. ?? No

Shall we call it day .

We'll try to shorten these interviews 5 or 10 minutes, that we can see at least 5 or 10 in a session.

The whole thing is important for us. You got to realize in the next 2 or 3 weeks, we go through this process to get our systems adjusted, (1:24). and then we go into transportation and transmutation (T&T) and see how we can get our systems to that level. We try to go to the next steps ...

You've got to realize something very simple. KF is a very open structure and in this structure we do everything in public in a way. We don't, like NASA, you see an astronaut coming out and getting on the thing, maybe a few pieces chosen whatever, .. and they go through a training and then they come out.

In KF we go through things as it is. It's been our habit. We are all involved in it. We don't know what you learn, that in your connection Knowledge and line of your work, you can use this ??? purpose or you can add to it, to find the purpose. So we don't put things and then bring it out, or something else.

This is how it is, .. knowledge has to be shared. It cannot be otherwise. It's not edited, what people want you to hear. We hear what people (actually) went through. It's an exciting time for a lot of us, if we understand the process. Next week I'll try to cover the 15th we have some interesting things on the 15th with some people.

The interesting part will be when we see the Italian team next week. They come on Tuesday. How would they .. react. (1:26). What we hear from them, how many of them will experience anything or not, nothing. How many of them will go through this emotion of ... ?? release of the , but living in the D of the soul. This is what I ?? think we'll see a lot next week. Which means they are together physically, but some of them will communicate in the D of the soul. And then we'll see how they convert that conversation into D of P. What would we hear from them when they come out. What did they communicate in the D of soul, which we don't hear. It's all emotion, and then we'll see how things take shape.

It's a structure of the society in deep space. In so many ways, how would we share our time and soul with each other in the space. Would they be aware of the time factor until we take them out. Then we see what happens.

This 21st testing, I said before. It's like if you live in America or some countries you become mature at age 21, and they give you the key of the house, before it was 18. This time it is 21. We that hope the Italians mature, they become 21, and we'll see how they do, .. what they bring. Or they bring maturity to us. I hope a lot of us will learn a lot from Wednesday. By Wednesday from the experience of Tuesday. (1:28).

It's unknown territory, uncharted .. places for us. I think we could not have chosen a worse culture than Italians, who know pleasure, fun, drink, and the rest of it, to do this first trial for man. I hope we learn from them, and we have a beautiful vibrant Italian community.

I hope they teach us a lot, if they come out sober. We will not allow more than 1 bottle of wine between all of them. We literally need some sober souls doing their job.

Q: .. What is Mr. Keshe feeling with all these wonderful things?

K- I was telling this to my bodyguard today, He is always present, he sees people coming and going, and that was a sense of achievement. Not the 40 years as a scientist and what has happened, ?? but over after thousands of years of being here to bring man to this point. ?? Nomad, and it's good to see man has matured. It's a lot of hard work by many, many (1:30). people. It's been years and years, and centuries and decades of work to get man to this point. It's good, it feels good, I hope humanity learns from it.

But again, as we said, we started with a wheel, and then ... car, rocket, electronics, to computers this is the beginning of a new cycle. This T as we see it today, is the same as when man made the first wheel. Now you can imagine how much there is left for us to learn if this is the first stone wheel in the knowledge of the creation. Then we see we have long, long way to go. But it's nice to see the man learned to make the first ball of PI, we call it Gans, and then we'll see what will come from it and what we'll learn from it.

### **Can we remain in that state permanently? - Yes - if we allow it**

Q: ... Can those who have traveled remain in that state of soul operation afterwards, or forthwith?

K- We can allow it, yes, if we allow it yes. If we allow it yes.

I was talking to one of the KS today, many of you once we go through the FS, will travel in those units into the depth of U. Many of you will never come back. We are not giving you an escape route, we are giving you a way to become part of Universal Community. It's like you live in a village, (1:32). and you go to the city, you never go back to the village you came from, because the life is different.

These are not portholes. These are the way the U is created.

Would we see in the long run, creatures coming through, back through the system to us, 100% possible. We don't disappear things, we allow the soul to take its place, and we have a connection to it. Because we can call upon it to come back.

You cannot leave the P behind and take the soul. But we learned a lot. A lot of us will learn, we become passengers of the U. We have become passengers of the U, as of 2 weeks ago. We just are putting our toes in the water to see where we are. We expect when the system completes, any man can go anywhere. Not just on earth, beyond, you travel in the depths of the U.

There are some recordings, that they .. tell you, they are amongst others and they feel the first ?? things, they are family, because that's their, that's where they came from. As I just said in the teaching today.

These are exciting times. But in a way, we have to, creation a condition for it to be done, for man to go. We've seen it, we call it, a perfection. The woman with shingles. Would she ever get rid of it, was there a wish to do it. We've seen other people, (1:34). they come and go into the depth of the U. We've seen profound changes in some people. They say we need time, even to digest what we've been through.

This is the travel in the D of the U, and not in the tool of the man, with rockets, cars, and the others. But the beauty of it is, now you have a choice. You can still get in a car, enjoy your child in the back seat, enjoy the wind, get into the car enjoy the beauty of the sunshine with the roof open, or walking on the street. Now you have an option, this is your earthly life. You can park the car, you choose, and travel the depth of the U, and

come back. Now man is given the option, to be able to travel in the D of P, or in D of the fields of the U.

We had to open this option. Now you see it. They travel to Venus or to another planet instantaneously and comes back, and still comes back to earth and is still a brother. He chooses, and this is the option man never had before. You don't need to sleep to dream, and you have no control of the dream, you can design the dream, go through it, travel with it, manifest yourself in one place and come back, and go back to normality. You don't need to die, (1:36). to free the soul.

The reason is, if you have seen all the cases, they tell you, Mr. Keshe says to do this or that. I speak from the P, they are dreaming, they are traveling the span of the U, and they have to come back, because Mr. Keshe said something. Now you understand man has been given 2 options, they can hear my voice, and they are still traveling in the U. It's real, and they are not under the blanket.

Thank you .. for today, and we hope we add to this knowledge more and more, and learn more and more. ...

R: Will there be another a 4th testimonials .

K- We have a lot of recordings ... anybody who wants , and we record . We choose some to put on. I just noticed something, we have to speak to Dean to shorten these. You can't ask them questions all the time form these, you have to let them to go through it.

...  
people carry on with what we hear again and again. We are learning it's the process of learning how we are going to do it.

I think it will be an exciting time when we bring a passenger of U into the structure. I see this as 100% possible in the coming time. (1:38). If we take our cameras into the room, would our cameras be able to register?

We are creating, once we go into complete operation another D in the U. If you look at it, in reality. The room is your Gans Box. and the 2 units are the electrodes. As I always say, when 1 electrode is in, which is Nano coated, the water in that Box, is not in the condition of outside. It's in a condition which creates itself, it's another entity. Now in the box of this building we are creating a condition. Would we reach the point where we absorbed, we created the condition of the Carbon (C ) and it absorbs in the CO<sub>2</sub>, C and then mixed with the environment became the CO<sub>2</sub>, we collect as Gans's. It's the same situation.

Would the interaction of the fields of the 2 units at a given point with another soul coming in, creates a condition that another D from life in the U will manifest itself in the room. What are the possibilities? 100%, no maybe's, and always think, because it's a very simple understanding. Now we have created the orange outside, which could be sitting in the U. And now we created a Cup and we got units, which are continuously releasing fields of the plasmas of the U. (1:40). Would at a given point the fields of the 2 units,

plus those who are its citizens in the room, will create a condition, that brings forth the fields, that another life in the U, becomes part of.

It's no difference unless you put limitation on your understanding of T and knowledge of the creation. The 2 electrodes are the 2 units, and your plastic box for making Gans's, absorbing creating fields, and absorbing from outside C to become CO<sub>2</sub>, is the reality you are working in. Now you have to understand the vice versa accepts ?? more and workable too. Which means the Gans's inside can be replicated, to attract outside, which means you who are the ?? being in that room, you are the Gans's. The way you put a Gans outside to create fields inside, now you are bound, to be able to be attracted by another D. If we create the D of Jupiter, anybody in that room will be able to go to Jupiter instantaneously. Now you create it your field of emotion.

The game of science has changed, and it has, it will change so much, that none of us will recognize the way it is today. Give me 5 years and then, the teaching of the next 5 years will change man beyond. Not many of you will get into cars, unless you like to have a ?? something to do. None of you will ever go to supermarkets, because ? ??? ?? (1:42). As I said, one day everything in the supermarket will be made of plastic for people to remember how people used to live. Because in essence you don't need to kill anymore, to kill the meat, and the cheese, lettuce and the rest. I am sure ??? the supermarket.

Thank you for today .. we add to the knowledge ...

END
